DON QUIGO

Don QuiGo is a theatrical street act in which Go, riding her loyal donkey, travels through the world and sees what others pass by unnoticed. She does not fight, she does not judge, but discovers signs of joy, small magic, and unexpected beauty in everyday life. With a solemn, historical presence and a light, charming playfulness, she makes the audience laugh before they know why.
In this way, Don QuiGo wins hearts – with humor, ideals, and the quiet conviction that life is already more beautiful than we think.
